

La Siesta

Beirut, 7 November, 2018

To Whom It May Concern,

It is with great pleasure that we recommend LEAD Construction after our experience with them during the construction of La Siesta Beach Resort project in Khaldeh, Lebanon.

LEAD Construction has revealed a high degree of professionalism in the construction management of the project and were able to deliver high quality end results despite the fast track conditions and all the challenges of the project.

We are greatly satisfied with our collaboration and we are confident of the ability of LEAD Construction's to manage and execute any type of high end project.

Sincerely,

Rania Saredine Akhras
Owner Representative
